Julie Brooker

Managing Director (VP)
Johnson & Johnson Innovative Medicine

Julie has held senior leadership roles at Johnson & Johnson since 2020, serving first as Managing Director for Denmark and, since 2026, as Managing Director (Vice President) for Poland. She brings over 25 years of pharmaceutical industry experience, including prior executive positions at AstraZeneca and MSD.

Passionate about transforming healthcare through public-private partnerships, Julie has served on the board of the Danish Life Science Cluster, a government-backed initiative driving business growth and addressing major healthcare challenges. She is also a former Chair and Board Member of the Danish industry association and former Vice Chair of the American Chamber of Commerce in Denmark. Now an active Management Board Member of INFARMA Poland.

Married and a mother of three.
